

# Pandemic Learning Trends

What do people want to tell home share providers that might **“change everything”**?

We're asking people to tell us their pandemic stories, and who should hear their them. As it turns out, there are a lot of stories that people felt home share providers should hear and that, if they did, it would **change everything!**

We're hoping to dive into making sense of these stories, but we'd love to hear from you too.

Please consider sharing an example of your everyday with us, whether it is at work, at home, or in community. Also, please let us know if you would like to join a sense-making session.
